Space for additional information:

(Please indicate which question the information is referring to.)

Re question 6: In addition all our correspondent banks are required to complete a questionnaire based on the Wolfsberg principles and we require to record the physical address of all correspondent banks.

Re question 9: The South African regulatory requirements have been adopted as a minimum standard for all group companies, business and support units, however, in some instances, group companies, business and support units located in other jurisdictions might be subject to different or more rigorous regulatory requirements in which case such requirements must be complied with in addition to the group's minimum standards.

Re question 19: Threshold reporting is done in the jurisdictions in which we operate and where it is a legal requirement to do so. However, even in those jurisdictions where there is no such requirement, monitoring is still conducted through the normal suspicious transaction reporting processes to identify structuring.
